Informed Consent for Tooth Extraction

Informed Consent for Tooth Extraction & Oral Surgery

I hereby authorize Dr. Arthur Dent and his clinical designees to perform the surgical extraction of my tooth/teeth. I understand that the risks include but are not limited to: post-operative pain, bleeding, swelling, localized infection (dry socket), temporary or permanent numbness of the lip, chin, or tongue due to nerve proximity, root fracture, sinus complications, and jaw stiffness. I have had the opportunity to discuss alternative treatment choices (e.g. root canal therapy, bridges, implants) and the consequences of no treatment. I freely consent to this procedure.
